PRESS RELEASE

October 12, 2018

Work on Sayre and Veltus Park Playgrounds to begin on October 15, 2018

GLENWOOD SPRINGS, Colo. – The playgrounds at Sayre and Veltus Parks are expected to be closed October 15 – 19, 2018 for contractor work. Both parks will remain open during this time.

Playground work will include the removal and replacement of existing gravel surface material under the play structures. The current gravel material will be temporarily piled in the parking lots of Veltus and Sayre Parks and may cause slight impacts on parking at these locations.

Material made of engineered wood chip fiber will be installed under the play structures at both parks. This is the same material that is currently at the Two Rivers Park playground.
